

LEGUAN®

PARTS MANUAL
MODELS 110 / 125

YEARS 2000 – 2005

This parts manual covers the Leguan110 and Leguan125 models (2000-2005). Leguan Lifts tries to deliver the spare parts with the highest degree of accuracy. However continuous improvement of our products is a Leguan Lifts policy. Therefore product specifications are subject to change without notice.

Readers are encouraged to notify Leguan Lifts about errors and send suggestions for improvements. All suggestions will be carefully considered for future printings of this and other manuals. Please write to the Technical Team:

Damaged equipment policy

Safety statement

All Leguan lifts are designed, manufactured and tested to comply with international safety standards. They are CE-certified.

Damage policy

There may be occasions when a lift is involved in an incident that results in structural damage. This can seriously affect on safe performance of the lift. Whenever a lift is damaged structurally or when there is a possibility of structural damage, Leguan Lifts requires that the lift construction and operation must be verified according to local regulations.

If you have any question about this, please call or mail Leguan Lifts service.

Damage repair notice

If spare parts needed, use only original Leguan spares. They will provide your lift the maximum life expectancy and ensure optimum safety. Leguan Lifts does not warrant any damages which are the result of using the lift.

Slewing cylinder and hose assembly.....	18
110-230V propelling unit (option).....	20
Electric box.....	22
Load control (option).....	24

How To Order Spare Parts

Please be prepared with the following information when ordering replacement parts for your Leguan product:

- Model number
- Serial number
- Part number
- Part description
- Purchase order day
- Delivery address
- Purchaser name and telephone number

Reading tip of the Leguan spare part codes :
