LEGUAN®

Market defining all-terrain spider lifts

PART OF AVANT® GROUP

Our story

LEGUAN LIFTS specializes in designing and manufacturing reliable, technologically advanced, and off-road-capable self-propelled access platforms. With a long tradition of innovation, Leguan introduced the first self-propelled access platform with outriggers in 1994, setting a new standard in the industry. What sets Leguan apart is its unique product concept, developed in close collaboration with customers worldwide. This approach ensures that Leguan spider lifts meet the diverse needs of professionals across various industries.

As part of the fast-growing Avant Tecno Group from Finland, Leguan Lifts proudly designs and manufactures all its products in Finland. These spider lifts are renowned for their unmatched user-friendliness, exceptional durability, and ability to perform reliably even in the toughest conditions. Their high resale value reflects their quality and long-lasting performance. Built for year-round use in every climate, Leguan spider lifts are engineered to withstand the elements. Vital components are protected from external damage, sawdust, ice, and water, ensuring consistent operation no matter the environment.

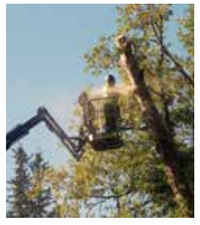

CONSTRUCTION

TREE CARE

RENTAL

PROPERTY MAINTENANCE

Used across all industries

Highly versatile and dependable, Leguan spider lifts are trusted by professionals worldwide across a wide range of industries. Common applications include arboriculture, painting, plastering, construction, property maintenance, installation work, and equipment rental. Whatever the trade, Leguan spider lifts deliver performance and reliability that professionals can count on.

THE LEGUAN PROMISE
UNIFORMITY • VERSATILITY • SUPPORT

DON'T JUST BELIEVE US.
HEAR WHAT OUR CUSTOMERS
ARE SAYING ABOUT LEGUAN

Easy-to-master uniform fleet

Developed in collaboration with international operators and distributors, Leguan spider lifts are designed with simplicity and usability in mind. With precise joysticks and intuitive control panels, operating a Leguan is straightforward — learn one, and you'll know them all. This uniformity makes our fleet ideal for rental companies and operators managing multiple lift sizes.

Finish more projects with Leguan

With unrivalled off-road capabilities, exceptional gradeability, and year-round usability, Leguan spider lifts go where others can't — anytime, anywhere. Broaden your customer base with the unmatched versatility of Leguan and finish more projects in less time with superior speed and usability.

Professional after-sales support, always close by

At Leguan, we're committed to more than just selling lifts; we take care of our customers and their equipment throughout its lifecycle. That's why we heavily invest in training our professional dealer network, ensuring quick access to after-sales and service support worldwide. Our mission: minimise downtime and maximise your efficiency.

The spider lift, redefined.

Developed in close collaboration with international customers

We listened to lift operators worldwide and discovered that the basic concept of a spider lift hasn't changed much: a light & compact self-propelled access platform that allows you to work safely at height. Meanwhile, market demands have evolved as spider lifts are no longer niche tools; they're essential across multiple sectors.

So we rebuilt the concept around the people who use it, and the people who own it.

- **Power up, step on the platform, get to work. No half-hour ritual before the first job of the day.**
- **The same interface across every model. Familiar with one Leguan means familiar with all of them.**

Straightforward to set up

Intuitive to operate

Effortless to maintain

Leguan for fleets

Your partner in reaching new heights

Harmonious fleet
Uniform design streamlines fleet management, operator- and service training.

Satisfied operators
Unmatched versatility and smooth operation translate into a high rate of repeat rentals.

Reliability
Faster turnaround and minimal downtime increase customer flow.

Partner support
Dedicated, factory-trained local after-sales support.

DISCOVER THE LEGUAN ALL-TERRAIN SERIES

EFFICIENCY DRIVEN EXPERIENCE

265

ALL-TERRAIN SERIES

87 ft
max. working height

45 ft
max. side reach

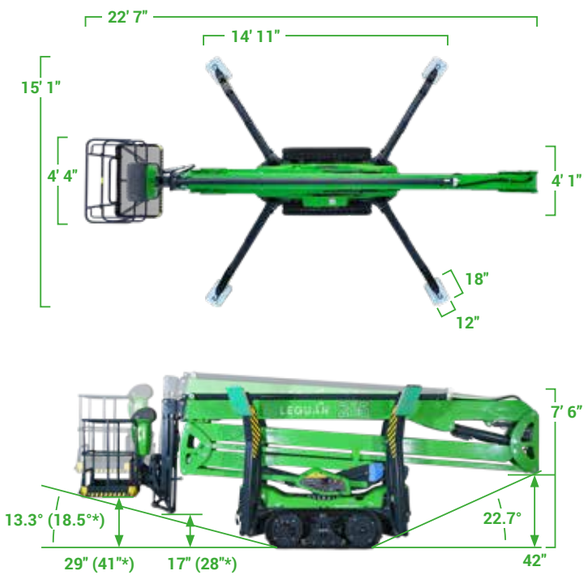

550 lbs
max. lift capacity

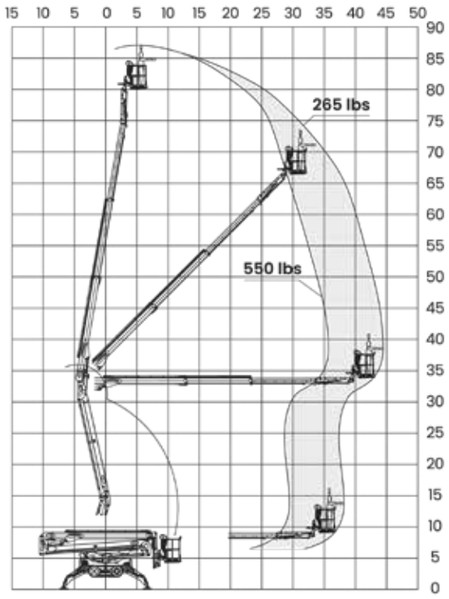

THE LEGUAN 265 sets a new benchmark for efficiency and performance in its class. With a working height of 87 ft, a maximum outreach of 45 ft, and an up-and-over reach of over 33 ft, it provides exceptional access for professionals across industries.

Engineered for versatility, the Leguan 265 features a lightweight design and a compact length, ensuring effortless manoeuvrability in confined spaces. Its rugged track system, unrivalled ground clearance, and the market's lowest centre of gravity provide exceptional stability and mobility, even in the most demanding environments, such as tree care and construction.

Speed and efficiency are at the heart of the Leguan 265. As the fastest 90-foot spider lift in the world, it takes just 1 minute and 35 seconds to fully extend the booms to maximum working height. This unparalleled speed allows operators to complete more projects in less time, driving greater productivity and profitability.

225

ALL-TERRAIN SERIES

74 ft
max. working height

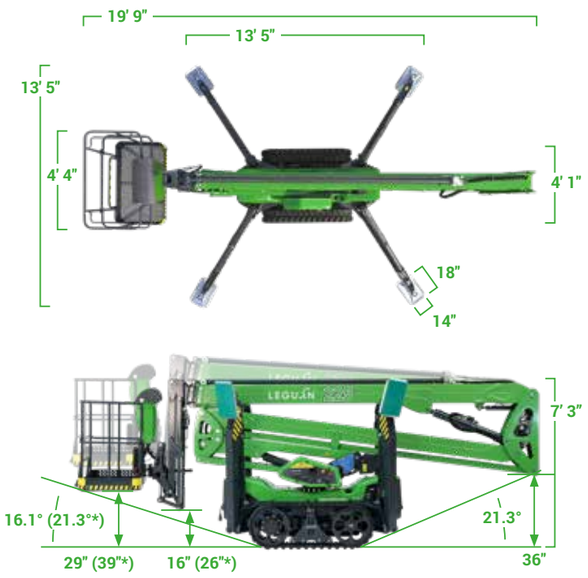

37 ft
max. side reach

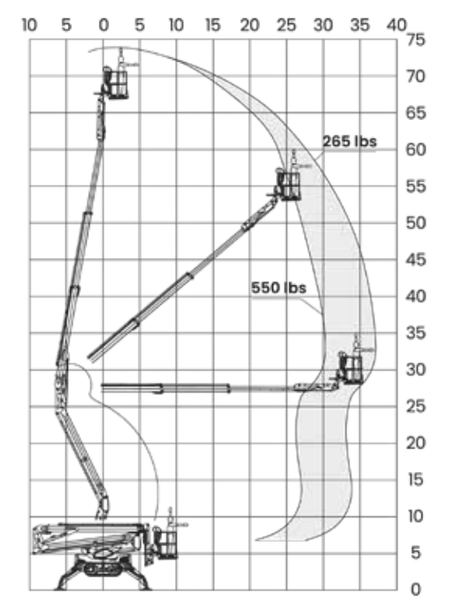

550 lbs
max. lift capacity

INDUSTRY-LEADING all-terrain capabilities, a high-profile track platform and fast driving speeds make the nextgeneration Leguan 225 a perfect choice for even the most demanding environments. The spider lift's boom is designed to maximize side reach even at high working heights, while intuitive user interface guarantees quick and smooth movements.

Thanks to user-friendly joystick controls, boom operation remains steady, and simultaneous movements become second nature. The Leguan 225's intelligent features minimise malfunctions and boost efficiency, allowing you to focus on the task at hand. Additionally, the boom is protected from external impacts, falling branches, and sawdust, making the 225 an excellent choice for arborists, construction workers, and other professionals.

195

ALL-TERRAIN SERIES

65 ft
max. working height

33 ft
max. side reach

550 lbs
max. lift capacity

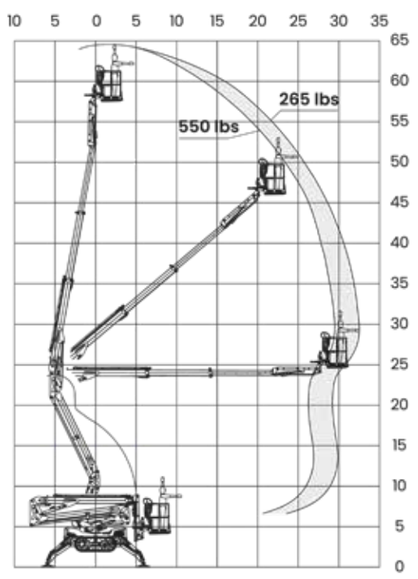

INTRODUCING the new standard in the world of spider lifts, combining unparalleled speed, precision, and safety. This all-terrain spider lift excels in even the toughest environments, thanks to its robust track platform and exceptional driving capabilities.

The Leguan 195 is the fastest lift to set up on the market, with unrivalled boom speeds that take the operator to maximum working height in just 55 seconds. Its advanced boom design ensures impressive side reach, even at greater heights, while the intuitive joystick control offers seamless, precise movements, allowing for easy operation in any situation.

A shielded boom structure protects the spider lift's key components from external damage, making it the perfect choice for demanding jobs such as arboriculture and construction work. Whether navigating tight spaces or tackling complex tasks at height, the Leguan 195 offers performance, reliability, and safety every time.

170

ALL-TERRAIN SERIES

55 ft
max. working height

29 ft
max. side reach

550 lbs
max. lift capacity

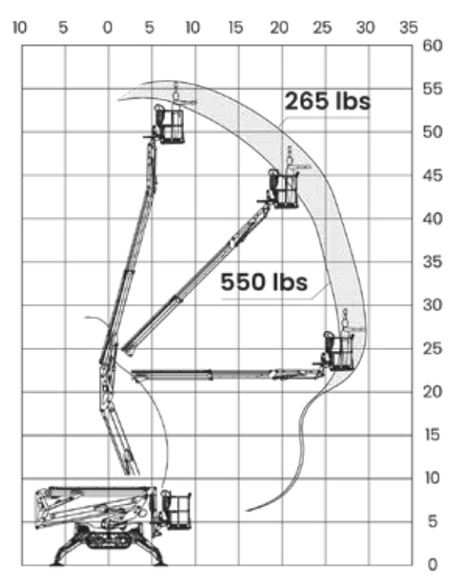

LEGUAN 170 is the newest model completing the all-terrain spider lift range. Designed with the same proven DNA as the flagship Leguan 195, 225 and 265 models, the 170 delivers rugged Finnish engineering and true off-road capability in a compact, highly versatile package. Like all Leguan all-terrain series models, the 170 is designed to be fully driven and operated from the platform, maximizing efficiency and ease of use on demanding job sites.

Built for operators who need reliable access on demanding worksites, the Leguan 170 combines tracked chassis with high ground clearance, efficiency boosting automatic functions and intuitive controls for fast, easy operation in any environment. Its compact size and outstanding maneuverability make it ideal for various job sites.

For arborists, contractors, maintenance professionals and rental fleets, the Leguan 170 offers a cost-efficient entry into full all-terrain performance — extending the reach, efficiency and reliability that Leguan lifts are known for worldwide.

Standard features

All-Terrain Series

- 14 hv / 21 hv Kubota diesel engine + 230 V electric motor
- 230 V and USB-power outlets on platform
- Automatic engine RPM control
- Automatic start-stop function for electric motor
- Automatic levelling of the outriggers
- Leguan EDX
- Intuitive joystick controls
- Elevated driving position
- Proportional outreach monitoring system
- Electric rotation of the platform
- Home / back to work function
- JIB-boom with 120-degree operating range
- Battery powered emergency lowering system
- Lower controls with integrated service display
- Horn

Optional features

All-Terrain Series

- Remote control for driving and outriggers
- LED spotlights for platform
- Tool trays on platform
- Outrigger beacons
- Hose to platform (air/water)
- Engine heater
- Non-marking tracks
- Narrow single person platform
- Custom colour
